

FIG. 1

FIG. 2

FIG. 3

FIG. 5

A cross-sectional view of a laser resonator assembly. A central rectangular block 65 is positioned below a series of horizontal layers. A dashed line 61 represents the optical axis, passing through the center of the assembly. Dashed lines 62 and 63 indicate the divergence of the beam. A layer 64 is located above the central block. A layer 66 is at the top, and a layer 67 is on the right side. A layer 60 is on the left side. A layer 23 is at the bottom, indicated by a dashed line.
